FNP SAMPLE Part Time Three Year Plan of Study

Name: _______________________ Enter: ______________  Graduate: ____________

Year 1:

Fall Semester

NUR 401  **Theoretical Foundations of Nursing and Health Care**
3 hrs Fall
Specific nursing theories and shared disciplines from other disciplines are examined.

NUR 405  **Epidemiology and Aggregate Based Health Promotion**
3 hrs Fall
Theoretical foundations, scientific principles, and research methodologies related to epidemiology with opportunities for practical application.

Spring Semester

NUR 407  **Scientific Inquiry and Research Design in Health Care**
3 hrs Spring
The skills of scientific investigation, analysis, evaluation and interpretation related to the conduct of nursing research. *Pre-requisite: Graduate level statistics.*

Fall Semester

NUR 437  **Pathophysiologic Bases of Health Deviation**
3 hrs Fall
Focuses on the conceptual understanding of pathophysiologic processes and its application in clinical practice.

NUR 431  **Diagnostic Reasoning for Advanced Nursing Practice**
3 hrs Fall
The diagnostic process, including skills of history-taking, target assessments, physical examination techniques, and SOAP documentation. Prerequisite NUR 401 or concurrent registration. *60 clinical hours required.*

Spring Semester

NUR 433  **Pharmacotherapeutics for Advance Practice Nursing**
3 hrs Spring
Focuses on the management of drug therapy for clients across the life span. Prerequisite: NUR 437.

NUR 471  **Family Nurse Practitioner I**
5 hrs Spring
Focuses on the specialized role of the FNP in preventive health and primary health care of populations across the life span. Includes practicum. Prerequisite: NUR 431 and 437; NUR 433 or concurrent registration. *120 clinical hours required.*
### Summer Semester

**NUR 473  Family Nurse Practitioner II**

- Emphasizes the role of the FNP in family-centered, preventive health care of the child-rearing family.
- Includes practicum. **Prerequisite: NUR 471**
- 120 clinical hours required.

### Fall Semester

**NUR 475  Family Nurse Practitioner III**

- Focuses on the role of the nurse practitioner in the management of complex problems of clients across the life span. Includes practicum. **Prerequisite: NUR 473**
- 180 clinical hours required.

### Spring Semester

**NUR 477  Family Nurse Practitioner IV**

- Studies issues involved in being an FNP. Includes clinical capstone preceptorship and synthesis project. **Prerequisite: NUR 475.**
- 240 clinical hours required.

**NUR 403  Professional Roles and Issues**

- Theories and concepts involving advanced nursing practice in contemporary nursing.

*Program hours = 44.*
