

Mennonite College of Nursing Post-graduate Certificate Program Outcomes

Graduates from the post-graduate certificate program will be prepared to:

- Provide compassionate, equitable, evidence-based primary care to individuals and families across the lifespan, with a commitment to serving diverse and vulnerable populations.
- Lead quality improvement initiatives that promote safe, effective, and patient-centered care within primary care and community settings.
- Integrate scholarship, evidence, and lifelong learning to improve advanced nursing practice and health outcomes.
- Apply ethical principles, health policy, and regulatory standards to advanced practice decision-making and healthcare delivery.
- Collaborate with patients, families, and interprofessional teams to optimize health outcomes across the lifespan.
- Coordinate and manage care across healthcare settings to improve access, continuity, quality, and cost-effectiveness of care.
- Synthesize and apply evidence, clinical judgment, and diagnostic reasoning to prevent disease, promote health, and manage acute and chronic conditions.
- Use communication and information technology to collaborate with healthcare consumers and providers across the healthcare system
- Meet the educational requirements for eligibility to sit for a national certification examination.
