Statement on Unsafe Practice and
Attainment of Course Objectives in Clinical Courses

A student may fail the clinical course on the basis of unsafe nursing care regardless of grades on course requirements or assignments. Unsafe nursing care shall be defined to include the following:
1. Failure to maintain confidentiality and/or ethical standards of nursing practice.
2. Failure to carry out nursing procedures in a safe manner.
3. Engaging in activities for which the student is not prepared.
4. Lying or deliberately giving inaccurate information.
5. Engaging in client care while a physical, mental, or emotional condition is a threat to others (e.g., communicable disease, intoxication, or emotional disorder).
